SKILLS

- **UI/UX Design** : Figma
- **Programming Languages** : Java, Python, JavaScript, TypeScript
- **Tools & Technologies** : HTML, CSS, Tailwind CSS, React, Bootstrap
- **Databases** : MySQL, MongoDB
- **Frameworks & Libraries**
- **Backend**: Spring, Jakarta EE, Hibernate,
- **Frontend/UI**: JavaFX, Swing, BeautifulSoup, React
- **Data Science & Utility**: Pandas, NumPy, PyGame
- **API & Testing Tools** : Postman, JWT Token
- **Version Control** : Git, GitHub
- **Soft Skills** :
- Communication, Collaboration, Problem-Solving, Time Management

EDUCATION

- **Graduated Diploma in Software Engineering** : Institute Of Software Engineering -IJSE
- **Graduate Diploma The Beeline Campus** : The Beeline English Academy & SDFL
- **Advanced Level Examination** St.Thomas' Girl's College

SACHINI APSARA

SOFTWARE ENGINEERING (INTERN)

PROFILE

Motivated Software Engineer | Full Stack Developer | UI/UX Designer
Dynamic and detail-oriented software engineer with expertise in full-stack development, UI/UX design, and mobile development. Proficient in leveraging modern technologies to create seamless, user-centric digital experiences across diverse platforms. My skills span frontend, backend, and data science, enabling the delivery of innovative, efficient, and scalable solutions. Known for adaptability, proactive problem-solving, and exceptional team collaboration, I thrive as an active contributor and leader in fast-paced environments.

PROJECT & EXPERIENCE

TRAVEL BOOKING SYSTEM

The Travel Management System Backend is built using Node.js, Express.js, and MongoDB. It provides APIs for user authentication, travel booking management.

- **Tech Stack** : REACT , TAILWIND CSS , REDUX, ROUTER
- **Back end** : JAVA SCRIPT , MONGO DB , JWT
- **Link** : <https://github.com/ApsaraWitharana/Travels-Management-System-Backend.git>

GREEN SHADOW SYSTEM

The Green Shadow Backend enables efficient role-based management with APIs for crops, equipment, vehicles, staff, fields, and monitoring.

- **Tech Stack** : HTML, CSS, Java Script , Bootstrap
- **Back end** : Spring boot, Mysql, JWT, Validating
- **Link** : <https://github.com/ApsaraWitharana/Hotel-System-Bootstrap>

HOTEL MANAGEMENT SYSTEM

Built a responsive hotel website using HTML, CSS, and JavaScript. Optimized for both desktop and mobile, delivering a seamless user experience with modern design and an intuitive booking system.

- **Tech Stack** : HTML, CSS, Java Script , Bootstrap
- **Link** : <https://github.com/ApsaraWitharana/Hotel-System-Bootstrap>
